Bloomberg

Bloomberg Certifications

Earn credentials that demonstrate proficiency with Bloomberg Terminal tools, data analysis, and market research widely used by finance professionals.

- **Bloomberg Market Concepts:** Learn about financial markets, explore over 150 functions, and add your certificate to your resume and LinkedIn profile.
- **Bloomberg Finance Fundamentals:** Explore real-life scenarios through the perspectives of various professionals, building financial literacy and an understanding of careers across the finance sector.
- **ESG Certificate:** A self-paced, interactive e-learning course showing learners how to implement ESG strategies and prepare regulatory reports through the lens of a fictitious buy-side asset management firm.
- **Bloomberg Spreadsheet Analysis Certificate:** A self-paced course providing foundational skills in Bloomberg Query Language (BQL) and its practical application within Excel. Through real-world scenarios, participants learn to filter, analyze, and aggregate financial data across macro, equities, and fixed-income markets.

Certifications

- **Bloomberg Market Concepts:** Explore markets, 150+ functions, and earn a certificate.
- **Finance Fundamentals:** Manage money and discover finance careers through real scenarios.
- **ESG Certificate:** Learn ESG strategies and reporting in a self-paced course.
- **Spreadsheet Analysis Certificate:** Build skills in BQL and Excel for financial data analysis.
