

Faculty Senate Technology Council

Minutes December 5, 2011

Present: Robert Harris (chair)
Doreen Corsetto
Cynthia Northington-Purdie
Kurt Wagner
Brian Obroin

Minutes passed as written, Kurt moved to approve, Robert seconded

We reviewed report, Technology Council Forum on 2011.11.10

We discussed the communications issues that were emphasized at the Forum

- Appropriate balance between communication and input
- Creating a ticket for Help Desk
- CIO will be reporting to VP of Business and Finance
- No person to talk to for technology problems
- Help Committee is not going anywhere
- Need to improve communication or we'll be spinning our wheels
- Technology structure must be re-organized
- Find a balance in decision making between faculty and leadership
- Robert will summarize sections from Forum Report

Priority for next semester:

- We need to make a concrete proposal about how we should re-organize Technology and present to Senate a plan to make changes.
- Robert will create a Blackboard group to put our thoughts together for proposal

- Set up meeting times for semester during first meeting in January
- Create time-line for the semester

- Create Privacy Issues Policy

Respectfully submitted: Doreen Corsetto
