

Science Enrichment Center Training Videos

The Help(er):

The helper was created as a marketing video for the Science Enrichment Center. This video was uploaded to Blackboard and YouTube to let students know that the SEC is here to help them excel in their courses.

Video Workshops

Part of being good leader is to provide students with the tools they need to excel in their courses. In its efforts, the SEC is being trying to create video workshops that will help students develop good study habits and preparation techniques that can help them successfully complete their courses.
